

Colonoscopy and/or Gastroscopy Open Access Suitability Questionnaire

FIRST NAME: _____ **SURNAME:** _____ **D.O.B** _____

MEDICARE NUMBER: _____ **REF:** _____ (**BESIDE YOUR NAME**) **EXPIRY DATE:** ____ / ____

PRIVATE HEALTH FUND: _____ **MEMBERSHIP NUMBER:** _____

This questionnaire is to assist our staff to determine the suitability of your procedure being performed without prior formal consultation.

If you wish to have a formal consultation with the gastroenterologist prior to your procedure date, stop now and inform our staff.

If you are a suitable, low-risk patient, this will enable your procedure to be fast-tracked safely, eliminating the pre-procedure clinic visit, thereby making the investigation process more convenient for you.

If you are suitable, you will be given a procedure preparation instruction leaflet. It is important you read these instructions well before commencing the preparation so you have the opportunity for us to answer any questions you may have.

You will meet your treating doctor on the day of the procedure. They will additionally discuss the results of the procedure afterwards and organize any follow-up that is required.

Answering "no" to all of these questions does not mean you cannot have a formal consultation with the gastroenterologist prior to your procedure date.

Answering "yes" to any of these questions does not necessarily mean you are not suitable for the procedure or are at any increased risk of having this procedure.

Please answer these questions carefully and give the completed questionnaire back to our staff.

YES	NO	
☐	☐	Age over 75
☐	☐	Obstructive sleep apnoea
☐	☐	Heart Disease ie. Prior heart attack, heart failure, arrhythmias, heart valve disease, pacemaker, implantable defibrillator
